this stock is the current rumor that a new issue of stock (about \$20,000,000) is to confer very valuable rights on the stockholders of record. In the general uplifting of prices Vanderbilt issues played an important part. Quiet tips were passed around before the opening that New York Central was "a good buy" around 150. A squad of brokers who are seldom active unless a movement of importance in the Vandermovement of importance in the Vanderbilts is under way were grouped around the New York Central post when business began, and the bidding for this stock became very spirited. One or two sales were made at 150 1-8 and then the price advanced quickly to 152 1-4. Other Vanderbilt stocks developed strength near while, and don the gossip of the Exchange pictured the Vanderbilts as buyers of pretty nearly every active stock on the list. Southern Railway shares in particular were pushed up on reports that W. K. Vanderbilt and H. McK. Twombly were adding largely to their investment holdings in these shares. The Morgan following has been buying Southern Railway common for the past two months in the belief that it is to be put on a dividend basis next year. Mr. Morgan is the controlling force in the Southern Railway voting trust. He made this company by re-organizing the old Richmond and West Point Terminal properties. He knows what it is and is in a position to know

Point Termscal properties, He knows what it is and is in a position to know whether or spit its development and increase in prosperity is substantial. It is significant that the commission houses that follow in the train of the Morgan influence are exceedingly bullish on Southern Railway common. These same houses were bullish on Eric common until the dissolution of the Eric-Cincinnati, Hamilton and Dayton deal. Still the fact remains that the Morgan following is crying up Southern Railway common and Eric common as especially good to buy—and put away for awhite.

Copper stocks had an aggressive advance in London yesterday, and the opening of Amalgamated and Anaconda here this morning was sympathetically strong. In the first ten minutes Amalgamated advanced to 115 on sales of about 12,000 shares. Anaconda at the same time was boomed up ta,300, with quick sales of small but aggregating 10,000 shares. Glowing accounts of the latest ore strike in the Anaconda mine were telegraphed from Buttle bo-day. The first five feet of the new ven in the 2,400 foot copper glance, it is reported will run from 50 to 70 per cent. pure copper. This is the deepest level in the Butte region. A few years ago, when F. Augustus Heinze predicted that rich copper deposits would be found at this depth, he was generally laughed at by practical minors. It is now Mr. Heinze's' turn to laugh.

The U. S. Seel snares are having their ups and downs. Recent declines in the price of these shares can be traced to two primary causes. One is, failure if the dominating interest to support the stock all the time and the other is, the conflicting reports about the condition of the steel industry. Officers of the U. S. Steel corporation say bother is, the conflicting reports about the company's history. Previous rumors that orders for finished steel are falling off are denied with emphasis. The U. S. Steel corporation's order book, it is asserted, shows an aggregate of 10,000,000 tons of product, yet to be turned out and delivered. This company has been ob

pools, it is asserted, shows an aggregate of 10,000,000 tons of product, yet to be turned out and delivered. This company has been obliged to dioline advance orders representing several thousands of tons of finished steel for the reason that it cannot agree to make the deliveries within the time specified. Professional traders neglected the Steel stocks to-day having their hands full of other speculative attractions. Steel commun, however, continued to be popular with the patrons of the conservative commission houses. Increased interest in Atchison stock as a speculative medium is caused by calculations of "rights" on subscriptions to the new convertible bonds. The holder of 100 shares of Atchison common or preferred may subscribe at par for \$500 convertible bonds. These bonds sold on Saturday at 1043-8, showing a profit of \$37 on the operation for each holder of 100 shares. Each variation of 1-8 per cent in the value of the convertible bond makes a difference of exactly \$3 in the value of the "rights" on 100 shures.

## COTTON TRADERS WAIT, WITH PRICES LOWER.

The undertone of the cotton market was steady at the start to-day, but prices were 2 to 5 points lower. that Liverpool failed to hold the mod-Saturday. Business here was mostly professional, and traders appeared to be holding off in order to get a line on the intentions of the big operators.

The opening prices were: March, 10.65 The closing prices were: February, 10.51 to 10.54; March, 10.69 to 10.61; April, 10.68 to 10.71; May, 10.73 to 10.75; to 10.71; May, 10.73 to 10.75; June, 10.82 to 10.81; July, 10.88 to 10.89; August, 10.79 to 10.51; September, 10.41 to 10.43; October, 10.31 to 10.32; November, 10.35 bid: December, 10.37 to 10.38.

WHEAT DECLINES ON CABLES AND WEATHER.

Wheat opened lower in the market today on poor cables and rain and snow n the West and Southwest.

Corn yielded in sympathy with wheat. New York's opening prices were: Wheat—May, 901-2 to 903-8. Chicago's opening prices were: Wheat —May, 851-8 to 851-4; September, 823-4. Corn—May, 433-4 to 435-8; July, 441-8 to 44.

COTTON BROKER DEAD. The announcement was made to-day on the floor of the Cotton Exchange of the death of Henry A. Martin, a member since Oct. 3, 1889.

ELKINS RATE BILL. WASHINGTON, Feb. 13.-Senator El kins to-day introduced his bill for rail-way rate regulation. The features of the measure have been published.

BOTH FOOD

AND MEDICINE We like best to call Scott's Emulsion a food-medicine. It is a term that aptly describes the character and action of our Emulsion. More than a medicine-more than a food, yet combining the vital principles of both. It is for this reason that Scott's Emulsion has a distinct and special value in all wasting diseases. There is nothing better to remedy the troubles of imperfect growth and delicate health in children. The action of Scott's Emulsion is just as effective in treating weakness and wasting in adults.

We Still Head the Couch Bed Procession!

## Sale of \$8 Double Iron Couch Beds at

We sell more Couch Beds than all other stores hereabouts coupled together. Once in a great while some other store will approach our figures on some one style of bed-but we sell ALL our Couch Beds-EVERY DAY-at a lower figure than any other store.

To-morrow-to prove that we will not be undersold-even in the special efforts of others-we shall offer four hundred of our famous \$8 Double Couch Beds, identical in every way with kinds advertised elsewhere as "very special at \$5.95"-

These are practically double beds-or two couches when separated. One section is made to slide underneath the other, though when placed alongside-for a double bed-mattresses are of equal height. They may be used as two single beds, two single couches, one single couch or a double bed. Built of bronze iron frames, fitted with National wire and helical spring ends.

Complete with Two Mattresses.

\$10 Mattresses at \$6.50

The hundred and first customer for these Mattresses will be disap-

pointed to-morrow-for we shall sell exactly one hundred at the

price, and no more. They

are positively worth \$10-so

dollars, if you hurry. All sizes.
